Optelec ALVA 6-Series

Setting the standard in Braille communication

Are you a Braille reader? Would you like a device that converts information from your computer screen into a seamless line of Braille characters? Do you wish to have wireless computer access to applications without having to install drivers?

“Improving the quality of life of visually impaired and dyslexic people – reaching out with simple and effective solutions.”

Efficient access to information

Imagine surfing the web, reading e-mails and reviewing appointments, all in Braille. The ALVA 6-Series easily connect to your computer, smart phone or tablet without having to install a driver. Offering excellent Braille cells and an optional built-in screen reader, using the computer has never been this simple.

Enjoy using a seamless Braille display

The ALVA 6-Series guarantee a paper-like reading experience. Thanks to the seamless Braille caps and to the luxurious Braille cells the ALVA BC640, BC680 and USB 640 ensures effortless reading.

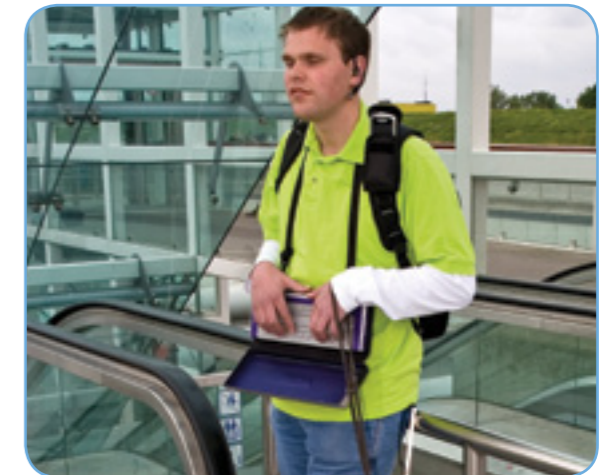

Taking notes with the ALVA BC640

The optional ALVA BC640 Feature Pack with integrated Braille keyboard enables you to take notes, write down phone numbers and schedule appointments. It reduces the need to use the computer- or smart phone-keyboard. The built-in speakers ensure continuous speech feedback from your screen reader.

ALVA BC640 Ideal mobile solution

The light, compact design makes the ALVA BC 640 your ideal companion. The optional Braille Audio Feature Pack with ergonomically designed input keys and integrated speakers makes the ALVA BC640 even more versatile. Equipped with special software, it provides full control of applications such as Word, Outlook and Skype.

ALVA BC680 Two Braille Controllers in one device

The ALVA BC680 is the smallest Braille display containing 80 Braille cells. This makes it the ideal solution for professional and educational environments. Thanks to the innovative “split-point” feature, the ALVA BC680 is the only Braille terminal offering simultaneous connectivity with two separate PCs or a PC and a smart phone.

ALVA USB 640 Small and portable

Via the high speed USB connection, the ALVA USB 640 effortlessly connects to your PC or MAC. Being small and portable, the ALVA USB 640 can easily be taken with you from home to the office as well as to other locations.
