Marsden M-230: A high accuracy, easy to use chair scale with a wider-than-standard seat

Marsden's M-230 is a highly accurate chair scale. Just like our M-225 Chair Scale, it can be used to measure **BMI, Body Surface Area (BSA)** as well as **patient weight to the nearest 100g**.

However, this robustly built chair scale has an extra benefit in that it **has a wider than standard seat**.

A wider seat accommodates more patients

The M-230 is just like our M-225 Chair Scale - except the seat is wider.

The seat is wider than the M-225 by 60mm, so it's easier for larger patients to use.

Plus, the M-230 is lightweight enough for easier moving between rooms or wards.

Super accuracy for medical purposes

Medical weighing requires accuracy and reliability. The M-230 is **Class III Approved and MDD Approved**, making it **legal for medical use as per the NAWI Directive**.

The NAWI Directive states that all scales 'used in the determination of mass in the practice of medicine for the purpose of monitoring, diagnosis and medical treatment' must be Class III Approved.

Weight readings for your patient are displayed to the nearest 100g.

Calculate BMI and BSA

We believe the new range of Marsden entry level medical scales - including the M-230 - are a world first. They feature a **unique Body Surface Area (BSA) calculation** function. BSA is often used for calculating drug dosages.

The M-230 uses the **Du Bois formula** to calculate BSA.

Additionally, the new-design indicator has a **BMI calculation** function, plus Tare and Hold. These functions are all accessible via **just five buttons**.

Key features

- Class III Approved
- MDD Approved
- Mains operated or batteries
- Folding back, armrests and footrests
- Large, bright display
- Battery status indicator
- BMI/BSA
- Hold/Tare

Four years of warranty cover

The M-230 is covered by the **Marsden 4 Year Warranty**. That's **two years longer** than the industry standard.

Like all Marsden professional medical scales, this chair scale is built to last. Our confidence in the quality of our scales has led us to offer this **industry-leading warranty**.

Specification

- Class: III
- Capacity: 250kg
- Graduations: 100g
- Weight of Scale: Approximately 18kg
- Power: Mains adaptor or 6x AA batteries
- Overall Dimensions: 985mm (l) x 600mm (w) x 1000mm (h)
- Seat Dimensions: 460mm (w) x 430mm (d)
- Weight of Scale: 8kg
