

Monteringsanvisning SecuCare terskeleliminator 2-sidig Sett 1-6

Nødvendig verktøy:

Gummiklubbe (alternativt hammer), skrutrekker/drill og en skarp kniv.

Medfølgende monteringsmateriell:

- Festepropper med dobbeltsidig tape
- Skruer, skiver og plugger for montering i underlag eller terskel
- Plastplate til bruk mellom hammer og terskeleliminator

3 måter å feste SecuCare terskeleliminator:

Festepropper med dobbeltsidig tape

Skru fast i underlaget

Finjustering av høyden på SecuCare terskeleliminator:

Høyde: 8 cm

Høyde: 7,5 cm

Høyde: 7 cm

Den øverste mørke skråmodulen brukes til å justere inn de siste 0,5-1,5 cm opp til dørterskelen.

Bruker du hele bygger den 1,5 cm, skjærer du bort den høyeste delen bygger den 1 cm og bruker du kun den siste laveste delen så bygger den 0,5 cm.

Når det skjæres bort deler av skråmodulen blir det behov for propper til å dekke hullene som da blir synlige:

Propp, kremfarget (14 stk)

- tetter hullet og ligge helt flatt med resten av terskeleliminatoren uten å lage kanter

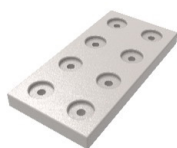

Antiskli propp (14 stk)

- tetter hullet og blir liggende som antisklirundinger på toppen av terskeleliminatoren
